

Mayne Island Community Centre Society (MICCS)

- Mission Statement -

To own and operate a sustainable facility for the benefit of Mayne Island residents and visitors and to encourage participation in community activities.

Purpose Statement

(Reproduced from the MICCS 2010 Development Policy)

MICCS will explore all possibilities of accommodating, on the Society's premises, any activity proposed by Mayne Island community groups. Sufficient enthusiasm, interest, dedication and willingness to benefit the community as a whole would need to be demonstrated. The group would then be required to follow MICCS 2010 Development Policy guidelines.

Ownership and title for any real property aspect of the project such as buildings and land improvements shall remain the property of the MICCS.

The proposed facility cannot be limited to the exclusive use by members of the applicant group. The applicant will be asked to outline to the MICCS Directors' satisfaction how the facility will be available for use by all.
